

ANNOUNCEMENT

**Introduction to Photodermatology, Photodynamic Therapy & Laser Therapy
Photobiology Unit, Ninewells Hospital, Dundee, Scotland
Monday 28th April – Friday 2nd May 2025**

Course organiser: Professor Sally Ibbotson

The Introduction to Photodermatology, Photodynamic Therapy & Laser Therapy Course is scheduled to be held in the Photobiology Unit, Ninewells Hospital in Dundee from Monday 28th April – Friday 2nd May 2025. This educational course alternates annually between the Photobiology Unit in Dundee and the St John's Institute of Dermatology in London. This course is aimed at dermatology trainees and consultants and covers all aspects of photodermatology. The basics of photobiology and photophysics, the photosensitivity diseases, investigation and management will be thoroughly covered. Phototherapeutics, photodynamic therapy and lasers are also included in detail. The course includes a balanced mix of lectures, practical demonstrations and clinical cases and comprehensively covers photodermatology curriculum requirements and those of a consultant dermatologist. A wide range of speakers with expertise across all areas of photodermatology will participate in the programme.

Places on the course are limited and are booked up quickly but priority registration will be given to BPG members.

For further information or to register your interest in attending the course please contact:

Mrs Lorraine Malone, Course Co-ordinator (l.malone@dundee.ac.uk); Tel: 01382 383272

(26 CPD credits approved)
